Valdosta, GA 31602
229.671.6130
www.legacysga.com

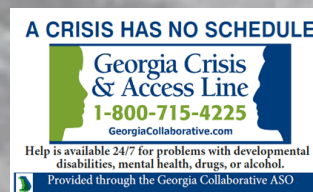

Medication-Assisted Treatment is a recovery tool that combines counseling with FDA-approved medications to treat individuals with substance use disorder, opioid use disorder, and alcohol use disorder.

Services Offered Through MAT Program:

- Physician Treatment
- Individual Therapy
- Family Therapy
- Group Therapy
- Addictive Disease Support Services
- Nursing Services
- Medication Administration

Benefits of MAT:

- Treatment is specific to the individual's needs
- Assists with withdrawal symptoms
- Helps taper off substances
- Prepares individual to enter a rehabilitation program
- Lessens cravings long-term
