Individual Placement and Support (IPS) Model of Supported Employment

1. Integration of employment with mental health treatment
2. Zero exclusion
3. Individual preferences are honored
4. Rapid engagement
5. Systematic job development
6. Focus on competitive employment
7. Proactive benefits counseling
8. Time unlimited individualized job supports

The goal of the Supported Employment program at Legacy Behavioral Health Services is to help individuals find a job that is tailored to the needs, interests, and skills of each person. When individuals need help learning new skills, the program can offer long-term career coaching support. Working closely with our devoted staff, individuals will establish organic community supports and get support if necessary to deal with various challenges that can have an impact on career or personal life. All referrals are welcome to the Supported Employment program.

Legacy Behavioral Health Services, your local Community Service Board (CSB), provides mental health, substance use and intellectual/developmental disabilities services for those in the community with limited income.
